

Innovative unit-dose packaging

# HYDROALCOHOLIC GEL

*in unique single-dose packs customizable with your company logo*

V-Shapes® provides hydroalcoholic gel in our unique customizable single-dose sachets that can be opened with one hand. Our sanitizing gel is protective and convenient without the need of rinsing or drying and, thanks to the addition of glycerine, leaves the skin soft and hydrated, even after frequent use.

## Innovative solution

A smart and patented single dose opening system with V-Shapes® hand sanitizer gel

## Customized

You can create your own unique customized packaging, with your own logo

## Pocket-sized

The V-Shapes® single serve sachets are so practical and compact that they can be carried comfortably in the wallet or purse

*V-Shapes® produces unit dose packaging machines designed for the packaging of single-serve sachets, that require only three fingers to be opened. The machines, entirely made in Italy, use a unique technology and highest quality components. V-Shapes® will simplify your life. Thanks to the smart and handy opening system, your consumers will be engaged in an extraordinary, emotional, and tactile experience.*

# DESIGN YOUR SINGLE-SERVE SACHETS WITH HYDROALCOHOLIC GEL

V-Shapes gives you the opportunity to customize your sachet, creating a unique and beautiful product.

You can use the single-dose sachet filled with hydroalcoholic gel to improve your brand recognition and to increase customer retention, offering a product that has become an indispensable part of everyday life.

You can choose between the size 50x50 and 40x80mm\*, customize both the top and bottom of the sachet and include the contacts of your company. Or you can request V-Shapes® branded sachets.

\*Size available only for orders above 10.000 pieces

The V-Shapes® sachets can also be sold in special boxes, available in various formats, from 10 to 250 pieces, both branded V-Shapes® and with the possibility of customization.

## V-SHAPES® UNIT-DOSE PACKAGING

VS
